03 / WRAPPING & SEALING

12-50

MICRONS

Stretch film

PALLET WRAPPING & BUNDLING

Highly stretchable, puncture-resistant transparent plastic film. Keeps items tightly bound and secure against external elements.

SPECIFICATIONS

Thickness ranges from 12 to 50 microns. Available in Transparent and Black.

AVAILABLE SIZES

2"-5" Banding
12"-20" Hand Grade
20" Machine Grade

04 / BOXES & BOARDS

200-600

MATERIAL GRADE (GSM)

Mono carton boxes

RETAIL PACKAGING & PRODUCT PRESENTATION

Lightweight folding paperboard cartons for individual product packaging. Printed and non-printed boxes for clean retail presentation and customised branding.

SPECIFICATIONS

Material Grade (GSM): 200, 300, 400, 500, 600.

Layer: Specialist in Multi-layer two sided pasting.

Options: Printed & non-printed boxes.

AVAILABLE SIZES

Custom dimensions based on product length, width and height. Share the required size and quantity for a suitable option.

05 / PROTECTIVE PACKAGING

Air bubble wrap

CUSHIONING & SURFACE PROTECTION

Pliable transparent plastic material covered with regularly spaced, air-filled hemispheres (bubbles) providing superior cushioning.

SPECIFICATIONS

10mm bubble diameter, 40gsm to 100gsm thickness grades.

AVAILABLE SIZES

Standard rolls of 1 meter width x 100 meters length.

40-100

GSM GRADES

06 / WRAPPING & SEALING

BOPP tape

CARTON SEALING & BRANDING

Biaxially Oriented Polypropylene tape. Strong, durable packaging tape with a powerful adhesive backing for high-stress sealing.

SPECIFICATIONS

Available in Transparent, Brown, or Custom Printed with your brand logo.

AVAILABLE SIZES

Widths: 1, 2, 3 inches. Lengths: 65m to 650m.

1 / 2 / 3

INCH WIDTHS

07 / STRAPPING & LOAD SECURITY

Strapping rolls & PP straps

BUNDLING, REINFORCEMENT & LOAD SECURING

PET and PP strapping rolls for bundling cartons and securing loads. PP straps wrap around packages to help prevent bursting or shifting during handling.

SPECIFICATIONS

Manual and machine grades. Heat- or clip-sealing as appropriate to the grade. PET/PP options with break strength up to 300 kg, depending on the selected strap.

AVAILABLE SIZES

Widths: 9, 12, 15 and 19 mm across the range. PP straps: 12, 15 and 19 mm. Select the grade to match the machine and load.

PET / PP

MANUAL & MACHINE GRADES

08 / WRAPPING & SEALING

Packaging paper

WRAPPING & PAPER PROTECTION

Eco-friendly, thick brown kraft paper. High tear resistance and highly recyclable.

SPECIFICATIONS

Weight ranges from 60 GSM to 150 GSM depending on protection needs.

AVAILABLE SIZES

Available in 30, 40, and 48-inch wide rolls or custom sheets.

60-150

GSM RANGE

09 / PROTECTIVE PACKAGING

Thermocol (EPS)

RIGID CUSHIONING & INSULATION

Expanded Polystyrene (EPS) foam. Highly rigid, lightweight material providing maximum shock absorption and insulation.

SPECIFICATIONS

Standard and High-Density options (10kg/m³ to 30kg/m³).

AVAILABLE SIZES

Customizable sheets, blocks, or molded shapes to fit specific products.

10-30

KG/M³ DENSITY

10

 / PROTECTIVE PACKAGING

EPE foam

SCRATCH PROTECTION & CUSHIONING

Expanded Polyethylene foam. A thin, soft, and flexible cushioning sheet that is non-abrasive and water-resistant.

SPECIFICATIONS

Scratch-resistant, non-abrasive, closed-cell structure.

AVAILABLE SIZES

Thickness from 1mm to 100mm. Available in rolls and pre-cut sheets.

1-100

MM THICKNESS

11 / PROTECTIVE PACKAGING

Air pillows

LIGHTWEIGHT VOID FILL

Small, continuous plastic pouches inflated with air to create lightweight, resilient blocks.

SPECIFICATIONS

High pressure resistant, recyclable, and biodegradable options available.

AVAILABLE SIZES

Standard 8x4 inch or 8x8 inch pillows.

8 x 4 / 8 x 8

INCH SIZES

D-cut / Loop

HANDLE STYLES

Non-woven bags

RETAIL CARRY BAGS & PROMOTIONAL PACKAGING

Lightweight carry bags made from non-woven polypropylene fabric. Suitable for retail shopping, garment packaging and promotional use, with space for printed branding.

SPECIFICATIONS

Spunbond polypropylene construction. Fabric GSM, colour, handle style, gusset and printing to be selected to suit the intended use.

AVAILABLE SIZES

Dimensions based on the required width, height and gusset. Share the bag size, carrying requirement and quantity for a suitable option.

13 / PALLETISING & TRANSPORT

Wooden pallets

STORAGE & GOODS MOVEMENT

Sturdy, flat transport structures made of wooden slats that support goods in a stable fashion.

SPECIFICATIONS

Heat-treated (ISPM 15 compliant for export), 2-way and 4-way forklift entry options.

AVAILABLE SIZES

1200x1000mm (Standard), 1200x800mm (Euro standard), or custom build.

2-way / 4-way

FORKLIFT ENTRY

14 / BAGS & COURIER PACKAGING

Courier bags (POD)

COURIER DISPATCH & DOCUMENT HANDLING

Opaque courier mailer bags with an external transparent POD document pocket. Designed to carry goods while keeping delivery paperwork together with the shipment.

SPECIFICATIONS

Flexible polyethylene construction with a self-adhesive closure and external document pocket. Film thickness, printing and pocket dimensions to suit the requirement.

AVAILABLE SIZES

Select the bag width, usable height and flap size to fit the contents. Share the required POD pocket size and order quantity.

POD pocket

PEEL-AND-SEAL MAILERS

15 / PROTECTIVE PACKAGING

Air bubble bags

CUSHIONING FOR INDIVIDUAL PRODUCTS

Lightweight protective pouches made from air bubble film. Individual air-filled bubbles cushion products and help protect surfaces during packing and handling.

SPECIFICATIONS

Transparent polyethylene bubble-film construction with sealed sides. Bubble size, film grade and closure style to be selected according to the product.

AVAILABLE SIZES

Pouch dimensions based on product width, height and thickness. Share the required opening size, flap preference and quantity.
